

LEJONKLOU MOVING MAGNET PHONO STAGES

Lejonklou Moving Magnet Phono Stages, the Slipsik 7 and the Gaio 2 – clean, simple, compact, musically engaging phono stages designed to retain as much of the musical signal as possible

- Circuits combine very short signal paths with high speed and high reliability components
- Components selected for the most musical performance after extensive listening tests
- Precise matching of critical components including final hand tuning of the reference Slipsik 7
- Exceptionally low noise and very accurate RIAA equalization
- Specially chosen internal torroidal transformer with permanent, selected, grounded AC cable
- The Slipsik 7 updates the Stereophile Class B rated Slipsik 5.1 & Gaio 2 replaces Stereophile Class B Kinki 3
- Simple, clean and sturdy all aluminum casework with an attractive black finish
- Reasonably priced at \$1795 for the new Slipsik 7, \$895 for the Gaio 2
